- Data structure concept

## Projects

---

- **Personal Portfolio Website**  
It's my personal website. In which i mentioned all the things which are developed my me.  
I have mentioned all the skills, in which i am comfortable to work.
- **Food Delivery System tamplate**  
Food Delivery System is a static website.  
Because it's contents can not be changed further because I have not included php and SQL as backend.
- **Blood Bank Management System**  
This Project was my second year college project. I have worked within a group. The front end part was designed by me and also I was leading to my team.  
I got first position for this project in my college project competition.
